GAO reviewed the Joint Tactical Unmanned Aerial Vehicle (UAV) program, focusing on the Joint Tactical UAV Project Offices proposed acquisition strategy for the Maneuver system. GAO found that: (1) past UAV acquisition programs have been marked by premature entry into production that resulted in extensive and costly system redesigns in an attempt to achieve acceptable system performance; (2) the Joint Tactical UAV project office plans to begin production of the Maneuver system without adequate assurance that it can meet operational performance requirements; and (3) the premature production of the Maneuver system will unnecessarily put the Department of Defense at risk of becoming committed to acquiring an unsatisfactory system. This item ships from La Vergne, TN. Paperback.
